

# Platform for Agricultural Risk Management

# Managing risks to improve farmers' livelihoods

The Platform for Agricultural Risk Management (PARM), an outcome of the G20 discussions on food security and agricultural growth, is a four year multi-donor partnership between developing nations and development partners to make risk management an integral part of policy planning and implementation in the agricultural sector.

## PROGRAMME LIFECYCLE

## GOAL AND OBJECTIVES

### GENERAL

To contribute to sustainable agricultural growth, reduce food insecurity, and improve livelihoods of rural and poor farming households in selected developing countries.

### SPECIFIC

Strengthen agricultural risk management (ARM) in selected developing countries, in a holistic manner and on a demand-driven basis.

ARM becomes an institutional component of agricultural policy in beneficiary Least Developed Countries (LDCs) and Low and Middle Income Countries (LMICs) and interested Regional Economic Communities (RECs) and African Union (AU).

## EXPECTED RESULTS

- Demand for ARM support from partner countries satisfied
- Knowledge and capacities to manage risks increased
- Agricultural risks priorities and risk management tools identified
- ARM priorities and tools integrated into national policies and development programmes

## Where We Operate

PARM is currently focusing on sub-Saharan Africa but may expand its geographical scope to other regions in the future.

The main selection criteria are based on:

### COMMITMENT

of the government to Agricultural Risk Management (ARM) and the status of the Comprehensive Africa Agriculture Development Programme (CAADP) implementation

### DIVERSITY

in agro-climatic zones, language blocks, and socio-economic standing.

The current selected countries are: Cabo Verde, Cameroon, Ethiopia, Liberia, Niger, Senegal, Uganda and Zambia.

## Our Governance

PARM is governed by a Steering Committee, an Advisory Committee and the Secretariat hosted in IFAD.

PARM also closely coordinate and cooperate with additional partners from development organizations, private sector, universities and research institutes.

### STEERING COMMITTEE
